

Dear FCC,
Since getting XM radio 2 years ago I have listened to regular FM radio a little more than 2 dozen times. I no longer consider myself a radio listener. Why would I? I have everything I could possibly want to listen to on XM. Talk, comedy, news, movie soundtracks, classic rock, and the latest hits. Weather and local traffic are the only thing missing for my location. When it becomes available it will be programed as one of my presets. If the petition goes through I will be denied the access to some of the most informative weather and traffic available. Please don't let greedy lobbyists bully an inovative company into limiting its service. Thank you for taking the time to listen to a concerned listener.

Trevor Kuhl
